About Getlink

Getlink SE (Euronext Paris: GET), through its subsidiary Eurotunnel, is the concession holder for the Channel Tunnel infrastructure until 2086 and operates Truck and Passenger Shuttle services (cars and coaches) between Folkestone (UK) and Calais (France). Since 31 December 2020 Eurotunnel has been developing the smart border to ensure that the Tunnel remains the fastest, most reliable, easiest, and most environmentally friendly way to cross the Channel. Since it opened in 1994, almost 500 million people and more than 102 million vehicles have travelled through the Channel Tunnel. This unique land link, which carries 25% of trade between the Continent and the UK, has become a vital link, reinforced by the ElecLink electricity interconnector installed in the Tunnel, which helps to balance the energy needs between France and the UK. Getlink completes its sustainable mobility services with its rail freight subsidiary Europorte. Committed to "low carbon" services that control their impact on the environment (through its activities, the Group avoids the equivalent of 1.9 million tonnes of CO₂ per year), Getlink has made the place of people, nature and territories a central concern.
